CAMPBELL & SIMPKINS,

FASHIONABLE TAILORS,

88 Government Street, - - - Heathorn's Block.

We have just opened out a New Stock of Fine Goods, of the latest and most fashionable designs, and can guarantee satisfaction in all respects.

Our MR. CAMPBELL was for two years managing cutter at the establishment of Leask & Morrison, and is well-known to Victorians for the excellence of his work. He recently returned from the east, where he made a personal selection of our stock. All those desiring the finest goods and perfect fitting garments are invited to call and inspect the same.

The manufacturing department will be under the superintendence of MR. SIMPKINS, who has a thorough knowledge of that branch, having occupied similar positions in the most fashionable houses in large eastern cities. The important work of fitting garments together will thus be satisfactorily completed, and our customers are assured of not only securing a perfect fit, but will also have clothes that are tastefully and strongly made in every detail.

Ladies tailoring will also form a feature in our business.

CALL AND SEE OUR STOCK.

Don't Forget the Number, 88 Government Street. mar3

CABLE NEWS.

The "Times" Savagely Attacks the Members of Parliament Who Welcomed Henry George.

Lord Randolph Churchill Scores a Victory Over the First Lord of the Admiralty.

The Young Kaiser Refuses to Transact Business With the Banker of the Late Emperor.

Victory for Lord Randolph.

LONDON, March 17.—Lord Randolph Churchill had a protracted interview with Lord George Hamilton, First Lord of the Admiralty, yesterday, on the subject of the new scheme for the augmentation of the navy. While nothing is definitely known of what took place at the conference, it is understood and quite generally believed that Lord Churchill insisted upon submission to himself and his adherents of an elaborate and voluminous presentation of the government's plans. Lord Hamilton demurred, alleging that the schedule demanded would involve an immense amount of clerical labor and consume a great deal of valuable time. The Tory democratic leader was obdurate, and threatened to move an ugly amendment to the naval bill in the house unless his request was complied with. Lord Hamilton hesitated, but, after reflection, he consented to furnish the information in detail.

English Journalism.

LONDON, March 17.—One of the recent changes made in the almost immoveable style of the *Telegraph* is the running off of a column of short paragraphs, headed "London Day by Day," in which the gossip of hotels, clubs, etc., and sketches of public men, are presented in the fashion peculiar to American journals. Last Friday one of these paragraphs alluded to Mr. Parnell in a manner highly complimentary to that gentleman, and equally creditable to a newspaper desiring to be fair. When the paragraph met the eyes of the proprietor of the paper, Mr. Lawson, he became furious, and summoned the various editors to him in an endeavor to ascertain which of them was guilty of praising Parnell in the *Telegraph*. Each of the editors disclaimed any knowledge whatever of the offensive articles. Mr. Lawson is still pursuing his investigation, and declares he will dismiss the culprit if discovered.

The German Court Banker.

LONDON, March 17.—Herr Cohen, of Dessau, who was the private banker of the late Emperor William of Germany, enjoyed the confidence of the sovereign to such a degree that the Kaiser decreed the banker's simple statement should suffice in all matters pertaining to his connection with the Emperor's finances, and extending this order to a settlement of his estate with the Imperial heirs. All of Cohen's intercourse with the Kaiser was direct, but the present Emperor, presumably at the request of some jealous member of the court, recently ordered Cohen to communicate with him through Herr Von Liebeman, grand marshall of the court. Cohen refused to conduct his business in that way, and severed his connection with the Imperial finances. Consequently there is no court banker at present.

Henry George's Doctrines.

LONDON, March 18.—The *Times* savagely attacks Commoners Archer and Clark respectively, members for Haggerston and Caithness, for taking part in the welcome given to Henry George by the Radical clubs on Saturday. "George's doctrines," the *Times* says, "come as near to sheer spoliation as anything that has been proposed by a man with a character to lose since the French revolution."

"The Wearing of the Green."

LONDON, March 17.—One of the results of the most complete collapse of the case of the *Times* against the Parnellites, manifested itself to-day in a display of shamrock *buttonaires* to an extent hitherto unprecedented, thousands of men wearing them merely to show sympathy with the Irish cause. The innovation excited a great deal of comment.

Boulanger Receives an Ovation.

PARIS, March 17.—General Boulanger journeyed from Paris to Bordeaux to-day. At Blois and St. Pierre Des Corps he received an ovation. Three thousand persons gathered in front of his hotel on his arrival at Bordeaux and cheered him repeatedly. He addressed the crowd from the balcony, expressing thanks.

German Minister at Tangiers.

BERLIN, March 17.—Count Von Tattenbach, secretary of the German embassy at Madrid, has been appointed German minister at Tangiers.

Tour of the World.

BERLIN, March 17.—A party of wealthy residents of Berlin, numering twenty, will start from the German capital on March 20th, for a tour of the world. They will go directly from Berlin to New York, and thence overland to California.

Cossacks Mutiny.

CONSTANTINOPLE, March 17.—A portion of Atchinoff's Cossacks mutinied to-day and chased the Russian consul off the ship, when that official tried to appease them. The most unruly of the crowd were finally removed to another vessel and sent to Odessa.

Liabilities Several Millions.

PARIS, March 18.—The suspension of Tavandio & Cie, bankers, is announced. Their liabilities are several million francs.

Director of the French Academy.

PARIS, March 18.—The Duc d'Aumale has been elected director of the French Academy for the next quarter.

Munificent Donations.

ROME, March 18.—Bishop Keane presented to the Pope to-day two Washington gentlemen, both of whom had subscribed munificently to the new Catholic university at Washington. Their donations are said to have amounted to more than $1,000,000 each. His Holiness thanked the gentlemen for their gifts and bestowed upon them his blessing.

France and the Vatican.

ROME, March 18.—It is noticed that the exchange of telegraphic despatches between the Vatican and various parts of France has become very frequent of late.

Austria's Bereaved Emperor.

LONDON, March 18.—Private advices from Pesth represent Emperor Francis Joseph as having greatly fallen away in flesh since the suicide of Crown Prince Rudolph, while his hair has become almost white. He has frequent paroxysms of grief, and this has especially been the case immediately after he held a conference with the intimate friends of the late Princess. The Empress eats rarely and sparingly, is unable to sleep for days at a time, and spends many hours in silent weeping. Her case is said to greatly puzzle her physicians.

Queen Natalie.

BELGRADE, March 18.—The statement that there was an agreement between King Milan and the board of regents upon the former's abdication of the throne that Queen Natalie should not return to Servia, is officially denied. Presumably on the strength of this denial it is reported that a gunboat has been ordered to Jalta to convey Natalie back to Belgrade.

Newspaper Seized.

LONDON, March 18.—The police of Hamburg have seized several editions of the Elbe *Courier*, which were on sale at the news stands, on account of the recent publication by that paper of two articles on the Geffcken affair strongly condemning the action of the government in the matter. The principal motive for the seizure, however, is believed to be a desire on the part of the authorities, in view of the present agitation of the socialists and workingmen, to remove from their reach every scrap of socialistic or democratic literature possible.

Prize for English Orations.

LONDON, March 18.—The second prize for English orations at Cambridge university to-day was awarded to Wm. H. Bucker, of Baltimore, half brother to W. H. White, secretary of the American legation. The winners of the first and third prizes have completed their third year at the university while Mr. Bucker is in his second year. The subject chosen by Mr. Bucker was "The American Constitution."

A Vote of Censure.

LONDON, March 18.—It is stated upon authority that, failing to bring about a debate in the House of Commons on the question of reducing the salary of Attorney-General Webster, the Opposition will introduce a motion censuring the Government for its connection with the case of the *Times* before the Parnell Commission.

Congratulating Parnell.

LONDON, March 18.—A despatch from Sydney, N.S.W., states that monster meetings were held throughout Australia in honor of St. Patrick's Day, at which resolutions were adopted congratulating Parnell on his victory over the London *Times*, and large sums were raised for the furtherance of the Irish cause.

Breach of Prison Rules.

DUBLIN, March 18.—The Rev. Mr. Fanning, who applied for permission to visit Doctor Gallagher, of New York, who is confined at Chatham jail, has been refused admission on the ground that the prisoner is under punishment for breach of prison rules.

O'Brien Refuses.

DUBLIN, March 18.—Mr. Wm. O'Brien refuses to avail himself of the freedom offered by the Parnell commission upon application of Sir Charles Russell, unless the condition that he will refrain from all agitation is dropped.

Shipbuilders' Strike.

BELFAST, March 18.—The strike of the Belfast shipbuilders is rapidly spreading. One thousand more men struck to-day.

Left for Zanzibar.

CAIRO, March 18.—Capt. Wissman has left here for Zanzibar.

Socialistic Tendencies.

BERLIN, March 18.—The *Volks Zeitung* has been suppressed by the government on account of its socialistic tendencies.

A Heavy Debt.

ST. PETERSBURG, March 18.—The supreme court has decided that Princess Hohenlohe, heiress to the Russian estates of Prince Willenstein, is indebted to the Bank of Commerce 6,000,000 roubles.

SPORTS AND PASTIMES.

LACROSSE.

The Vancouver *World* says: "A beautiful silver cup will be contended for by the lacrosse clubs of the province during the coming season. This cup, which is being presented with this object by the Alhambra of this city, was manufactured by the Meriden Brittania Co., of Hamilton, Ont., and is a perfect beauty. It is made to stand on a pedestal, and will, when mounted, stand nearly 24 inches in height. Lacrosse sticks and flags support the upper portion of the goblet, which is beautifully engraved with flowers, and representations of men in the act of playing lacrosse. On one side is a blank space on which the name of the winning team will be engraved. It will be known as the Alhambra cup, and will be presented to the club winning the most games played in Vancouver this season."

AN IMPORTANT POINT.

TO THE EDITOR:—With the coming regatta in this harbor, as it doubtless will be held, in celebration of the Queen's Birthday, let me suggest that each sculler carry not only a distinctive color at the bow of his boat, but also that each competitor carry with him as actual body colors, the light blue, dark blue, orange, cherry, or some very discernable color from a distance. An old and well recognized referee tells me that in the flurry of a closely contested race, before the rounding point is made, it is almost impossible with the most acute glasses to say whether a foul has occurred or not. The mere colors, half the size of a 10 cent handkerchief, that many single scullers have been wont to carry do not with the wash of the water, as a rule, come out at the finish. So in a most interesting match amongst scullers of all the world, and champions at that, let the people and the referee and the judges from their respective standpoints know who is who. There is, I am told, a good deal of money changes hands on colors.

MORTLAKE.

HERE AND THERE.

The schedule committees of the junior baseball clubs of the city, will meet to-night.

Fishermen who went up to Shawnigan Lake to enjoy the first trout fishing on Sunday last, were caught in the rain. Nevertheless the majority report good sport, and a good time generally.

Irvine, the pedestrian, has completed arrangements with Ed. Shade, of this city, for a ten-mile heel-and-toe contest for $250 a side, to come off in the skating rink within ten days. The winner is to take all the gate money, and the match will no doubt be a keen one.

Considerable money has been put up on the Cameron-Michaud wrestling contest which is to come off next Saturday. The men are both in the pink of training and eager for the fray.

Children Cry for Pitcher's Castoria.

CAPITAL NOTES.

The "Globe's" Flop on the Jesuit Bill the Question of the Hour.

The Liberals Highly Indignant---The "Flop" said to be in Little Mowat's Behalf.

Sumas Dyking Lands to be Reconveyed to British Columbia—Davin Wants the Waters of the Territories Stocked With Fish—Victoria's Member Entertains a Company of Ladies and Gentlemen.

(From Our Own Correspondent.)

OTTAWA, March 18.—The sensation of the day is the *Globe's* flop on the Jesuit question. Late as ten days ago it urged that the government were quite right in not disallowing the bill. On Saturday it says it is convinced after studying the articles in the *Law Journal* and *Law Times*, that the act must be disallowed. The liberals here are furious at the somersault. Mr. Edgar, a *Globe* director, publishes a letter condemning that paper for the change of base, and the *Globe* replies.

The Ottawa (Grit) *Free Press* is out in a rough attack on the *Globe*, and says that the paper by its tergiversation has put itself outside the pale of party journalism. Apparently the paper does not know its own mind for twenty-four hours at a time says the *Free Press*.

The statement that the *Globe* will dissociate itself from these "politicians prominent and politicians obscure" who fail to obey its orders, would be highly amusing but for its impudence. Perhaps the *Globe* may be found defending the Jesuit bill again to-morrow, and then perhaps a new excommunication bill may be necessary. The family quarrel is decidedly edifying to the ministerialists. The *Globe's* flop is said to be Mowat's card to retain the province.

Hon. Mr. Dewdney gives notice of a bill for the reconveyance of the Sumas dyking lands on the Fraser river, amounting to 45,000 acres, which at the time of the Settlement Act were inadvertently claimed by the Dominion. By this arrangement, however, they were deducted from the amount of land dealt with by the local government within the railway belt and for which the lands were given in the Peace river country. This reconveyance straightens matters out.

In the House, Ives' motion for a commission to enquire into Canadian trade through the States, and the probability of diverting it into Canadian channels, dropped, owing to the critical illness of his father-in-law, the minister of railways.

Mr. Platt moved that the duty be removed from all grains which do not ripen in Canada.

An influential delegation interviewed the Premier to-day to ask a grant of five hundred dollars for each art school of the Dominion.

The supreme court rendered several judgments to-day. No British Columbians.

Mr. Davin is asking the fisheries department to stock the waters of the territories with fish indigenous solely to the waters of the older provinces.

Mr. Prior entertained a large party of ladies and gentlemen to-night at Aylmer, a little village ten miles from the capital.

LITTLE LOCALS.

Spring Jackets, a large assortment, were opened yesterday at the Westside.

The ladies of Pandora street Methodist church will hold a congregational social to-morrow evening.

Two days' mails arrived from the East last night, Sunday's train being several hours behind time.

The Blue Ribbon Club will meet to-morrow night for reorganization, and the transaction of important business.

The citizens who had gathered to talk 24th-of-May at the City Hall last night, were left in the dark by the untrustworthy gas.

A well-known contractor and our genial postmaster will make their *debut* as vocal soloists at the Gorge church concert to-night.

"A Night Off" is pronounced by the press everywhere to be one of the funniest and purest comedies ever presented.

Mr. J. B. Holman, manager of the Nanaimo telephone exchange, is missing, and his friends are becoming very anxious for his safe return.

A single tap of the bell in the Tiger Engine House, was the cause of the firemen turning out in haste last night—again the ghostly bell.

All trains en route for Portland on the Oregon & California line, are still laid up, and will be unable to proceed until the damage by land slides is repaired.

The body of the late William Marshall arrived by the steamer Umatilla last evening, and the funeral will take place from his late residence, the Gorge Hotel.

A quantity of contraband cigars, wines and other goods have been seized at Vancouver by the customs authorities. The goods were smuggled ashore by Chinamen from the steamship Batavia.

Fishermen at Westminster are complaining that the seals are more numerous in the Fraser this spring than for many years. It seems that they keep very close to the salmon nets and devour any fish which may become entangled from time to time.

Charles Channing Scott, one of the proprietors of the Gilman House, Portland, committed suicide on Saturday last by jumping from a window in the third story of the hotel to the stone pavement below, receiving injuries which resulted in death.

PERSONAL.

G. E. Corbould, of Westminster, is in the city.

Miss L. Denny is the guest of friends in Port Townsend.

Mrs. W. Denny is visiting friends in Portland, Ore.

W. R. Higgins went over the Sound yesterday on business.

Mrs. and Miss Shotbolt returned from Westminster last evening.

W. N. Bole, M. P. P., arrived from the mainland last evening.

John Dougall, proprietor of the Dougall House, Vancouver, is in this city.

William D. Fraser, of San Francisco, is spending several weeks in Victoria with friends.

Harry Abbott, superintendent of the Pacific division, C. P. R., was in the city yesterday.

U. Nelson, R. Collister and F. G. Richards, were among the mainland passengers last night.

H. W. Austin, of Chicago, arrived by the San Francisco steamer last evening, and is a guest at the Driard.

SPRING GOODS just arrived at London Boot & Shoe Store, Douglas street. *

MARINE.

Bark General Fairchild is on her way from San Diego to Nanaimo.

Schooner Mary Ellen cleared at San Francisco for Victoria on Saturday.

Steamship Danube arrived at the outer wharf last evening from Portland, and is discharging general freight.

Ship Louis Walsh cleared from Port Moody for San Francisco on Saturday with 2,200 tons Banff coal.

S. S. Batavia leaves Vancouver for the Orient to-day. She will carry a good many passengers and a heavy cargo.

The Rainbow left for New Westminster yesterday morning but was obliged to put back into port on account of the heavy sea running.

Steamship Umatilla arrived from San Francisco last evening. After discharging the freight for this port she sailed for Port Townsend.

Barque Don Adolpho arrived in the Royal Roads on Sunday afternoon from Honolulu. She will proceed at once to Nanaimo to load coal for San Francisco.

The steamship Sardonyx took on 90,000 shingles from Haslam & Lees mill, Nanaimo, on Saturday, for the North Pacific Canning Company on the Skeena river.

The O. R. & N. Co.'s steamship Columbia, from Portland, arrived at San Francisco on Saturday with a case of smallpox on board and was immediately quarantined.

Steamship Walla Walla, upon arrival at Port Townsend on Saturday, was seized for violation of the customs laws, but was subsequently released on $5,000 bonds. The charge against the vessel is for not having all her cargo noted on her manifest. On the return of the vessel she will be again seized.

AMERICAN NEWS.

A Young Forger.

SAN FRANCISCO, March 18.—D. G. Malarky, a young man who came here recently from Oregon, was arrested this morning for forgery. Malarky was stopping at a cheap hotel, and last night obtained $25 from the proprietor on a worthless check for $100, to which he forged the name of his mother, Mrs. Ellen Malarky, who lives at Portland. Malarky has been guilty of similar offences before.

Suffocated in a Mine.

SONORA, Cal., March 18.—Jas. Spellman was killed yesterday evening at Buchanan Mine. He and a fellow miner entered a tunnel too soon after a blast was discharged, and they were both overcome with gas. The other miner was with difficulty rescued in time to save his life. Spellman arrived only a day or two ago, and in one hour after going to work was dead.

China and Japan News.

SAN FRANCISCO, March 18.—The steamer City of Peking arrived from Hong Kong this afternoon with the following advices: The funeral of Rear Admiral Chandler, commander of the United States Asiatic squadron, took place Feb. 13th. All business in the colony was suspended and the whole naval and military force attended the obsequies, which were the most impressive ever seen in Hong Kong. Quiet has followed the riotous scenes at Chinkiang, but the feeling against the foreigners is still very high. The presence of American and British war vessels will, however, probably prevent any future disturbances.

To Protect Alaska Salmon.

WASHINGTON, March 18.—The secretary of the treasury has directed the officers of the customs and revenue marine services on duty in Alaska to co-operate in strictly enforcing the recent act of congress prohibiting the damming of rivers to obstruct salmon and other game fish on their way to the spawning grounds.

A Great Storm.

BLACK ISLAND, R. I., March 18.—The severe storm which began at 8 p. m. Thursday, having an average hourly velocity of 60 miles, and attaining a maximum velocity of 72 miles per hour at 2 p.m. Saturday, with blinding rain, still continues. The ocean as far as can be seen is one mass of white foam. The breakwater, 1500 feet long, was at all times invisible. No communication with the mainland has been had in four days until now. The barometer remained almost stationery, and the storm has just given indications of subsiding.

The Storm Abating.

PORTSMOUTH, Mass., March 18.—The storm is abating this morning, but the surf is yet heavy outside. A heavy mist obscures the view beyond Brown's Island. A careful examination of the shores, as far as the mist permits, shows no sign of wreckage. It will cost several thousand dollars to repair the damage done by the storms to the beach this winter.

Found Guilty of Murder.

JEFFERSON CITY, Mo., March 18.—Joseph Glahu, under sentence of death, from Monroe County, for murder committed in Shelby County in 1877, was to-day granted a new trial by the supreme court. The case was tried on a change of venue in Monroe County, and Glahu was found guilty, and sentenced to be hanged.

Bank Swindlers.

WASHINGTON, March 18.—The cases of Cross and White, the embezzling president and cashier of the State National Bank of Raleigh, N. C., who fled to Canada last spring with a large amount of the bank's money, will be argued before the supreme court this week. W. R. Henry, a North Carolina lawyer, who appears for defendants, has raised a new and important question of state and federal jurisdiction, which he will introduce in his argument.

Advertisements unaccompanied by specific instructions inserted till ordered out.

Advertisements discontinued before expiration of specified period will be charged as if continued for full term.

Liberal allowance on yearly and half-yearly contracts.

☞ Where Cuts are inserted they must be ALL METAL—not mounted on Wood.

THE CITY'S GARBAGE.

There is, we see, some difficulty about the disposal of the garbage of the city. There is no part of the suburbs in which it can be dumped where it will not be offensive and injurious to residents and travellers. It should not in fact be dumped anywhere. Heaps of filth are dangerous, and there is no way by which they can be readily made innocuous. The safest way to get rid of it is to burn it. But this is a costly operation requiring an expensive apparatus of furnaces, etc. But there is an easy and a comparatively inexpensive way of disposing of the garbage of this city. It can be thrown into the sea, where it can do no harm to anyone. We cannot see why, with so effectual a way of disposing of the garbage of the city, there need be any question of dumping it anywhere else. When it is in the sea it is dispersed and its decomposition is not injurious. It is very different when it is allowed to lie anywhere on the land or in the waters of the harbor. Dumping it anywhere in the outskirts of the city is necessarily a temporary arrangement. The accumulations must in time become so great and so detrimental to the health of the community that some other means of getting it out of the way should soon become a necessity. It is best to take the safest way at once. Some objections may be raised by persons who own land near where the refuse is thrown into the sea, but we do not think that even they would suffer any inconvenience. Arrangements could be made to unload the carts at a time when the tide would soon take it out of the sight and smell of those who live near. We trust that the Board of Aldermen will take measures to place the garbage where it will be a nuisance to no one. Where the choice is between depositing it on the land and throwing it out into the sea there should be no hesitation. If carrying the dirt to deep water is more expensive it is more effectual and in every way preferable. In a matter which so nearly concerns the health of the city the difference in the cost of carriage is not worth a moment's consideration.

THE EX-PRESIDENT.

Since Mr. Cleveland has stepped down and out he has gone into active business as a lawyer. He did not, as it appears, lose a single day. One day he was the head of a great nation and almost the next he was a private citizen contentedly working at his profession. It is said that Mr. Cleveland has taken his defeat philosophically. He considers that at the late election he represented a principle which the people of the United States were not perpared to receive, and he has gone back to the ranks apparently determined to work for that principle until it is triumphant. He accepts the verdict cheerfully as becomes a good citizen. He thinks the verdict an unwise one, and he is using his privileges as a citizen of a free country to have that verdict reversed. It appears to be in countries only where the Anglo-Saxon element is strong that these great political changes take place quietly and peaceably. In those countries the men in power no matter what may be their rank bow to the verdict of the people. Not submissively at all but not resentfully. They cheerfully acknowledge the right of the majority to rule and without a murmur retire to make way for men who enjoy the confidence of the greater number. They do this without loss of dignity and almost without loss of prestige. But no sooner do they find themselves in the minority than they set about, in constitutional ways, endeavoring to bring the majority to their way of thinking. Mr. Gladstone is one conspicuous example of the way in which Anglo-Saxon statesmen accept the decision of the people and Mr. Cleveland is another. They resigned power because the people willed it, but they were hardly out of their positions when they were at work battling for the cause which had been lost at the polls. In other countries political changes are not brought about so quietly, nor do public men accept defeat with so good a grace. What takes place as a matter of course in Great Britain, Canada and the United States it takes a revolution, or the next thing to it, to do in continental Europe or the South American Republics.

BLANKETS, Flannels, Quilts and Wool Goods, excellent value at THE WESTSIDE. *

THE QUEEN'S BIRTHDAY.

The citizens of Victoria have determined to celebrate the Queen's birthday this year, as is befitting, in a right royal manner. There is to be a fete which is to last two days. There are to be sports and amusements suited to people of all tastes and conditions. If the programme of the committee is judiciously drawn up and well carried out, the celebration will be finer and better worth seeing and taking a part in than anything of its kind that has yet been seen on the Pacific coast. The athletic sports will be numerous and varied, and some of the best men in Canada and the coast States will participate in them. The regatta will be most attractive. It is not often that such a number of first-class oarsmen can be got together on this side of the continent as will be in Victoria on the 24th and 25th of May. The sculling matches of themselves will be enough to attract a great crowd to the city. The committee should take care to have it well known all over this part of the continent who are to be here and what is to be done. They should exercise great care in arranging their programme, and then advertise it far and wide. Every one who has any idea of taking a holiday about that time should know what is prepared for their enjoyment in Victoria. But the committee will be able to do little if they are not well backed up by their fellow citizens. Anything like an adequate celebration on the scale intended cannot be got up without the expenditure of a good deal of money. If it is not to be a mean one-horse affair, the committee of management must be well supplied with the sinews of war. A generous expenditure will be sure to pay. The Committee should not, for want of funds, be compelled to forego anything that would tend to make the celebration imposing or effective. The citizens of Victoria should remember that it in a very great measure depends upon them whether the celebration is to be worthy of the city or not. If they place the means in the hands of the managers to do the thing in good style and to make the arrangements that they believe to be necessary, the celebration will be a success. If they hold back and do not contribute generously towards the fund, they will have themselves alone to blame if the celebration is a failure. But we are not afraid. When once the matter is taken in hand everything will be done both by the committees and the citizens generally to make it the most magnificent affair of its kind ever seen on this side of the continent.

It is in the interest of every citizen of Victoria and every inhabitant of British Columbia, for that matter, to do all they can to further this pleasant undertaking. This Province is only beginning to be known in Eastern Canada and the United States. Very few have any idea that it is so beautiful and so goodly a land. By offering strangers an inducement to visit it they help to make it better known. People will come here who will appreciate the beauties and the capabilities of the country, and will tell their neighbors in the different parts of the country the good impression it has made upon them. By this means persons of the most desirable class will be induced to come and settle in the Province. All that British Columbia needs, to be considered as one of the most desirable fields of immigration on the continent, is to be known. And no more effectual way of spreading a knowledge of the country can be devised than this proposed celebration of the Queen's birth-day. The crowds of visitors who will be induced to come here if the proper means are used will benefit the city in other ways, and those who pass two pleasant days here, in the most delightful season of the year, will, when the opportunity offers, be glad to repeat the visit. A good beginning has been made and we hope that those who have taken the matter in hand will receive such encouragement as shall stimulate them to carry it out with renewed energy.

EDITORIAL COMMENTS.

It appears that the new gold fields in Lower California are not the Eldorado that they were represented to be some time ago. They are difficult of access and everyone who searches for gold in them is not successful. Here is a description of them taken from a late California paper.

The new fields are at a place known as Santa Clara, which lies in the mountain range about fifty miles southeast of Ensenada. They can be reached either from that port, by a trail through the mountains or from San Diego, by a trail which recent travel has converted into a primitive wagon-road, and which crosses the border. The distance by this road from San Diego to the diggings is about 140 miles, in a southeasterly direction. It hardly need be said that the road is bad. It is in places almost impassable for a loaded wagon. There is little or no water to be found on the way. There is shelter at Tia Juana, on the frontier line, at Cario, Cuncios, Vallecitos, Burro Valley and Real del Castillo, at each of which places there is a house or two. The nights are bitterly cold and the sun at mid-day is scorching. At the mines there is a general scarcity of everything. Clothing, food and tools are in demand at high prices; nor is there much present prospect of the demand being supplied by shipments from Ensenada. It is practically impossible to move heavy freight over the trail. At latest dates it is supposed that there were 1,000 men at the diggings.

"The last letters from the new El Dorado say that work is chiefly concentrated on two gulches, the American and Mexican. In the latter there is said to be a good deal of gold but little water; in the former, plenty of water but little gold. So the miners are carrying the dirt from the Mexican to the American and washing it there. In the gravel of other gulches and canyons gold has been extracted by the pan. But for the moment the American and the Mexican are the favorites."

From all accounts it does not appear that these diggings are any richer than dozens of others about which an excitement has been raised and to which a rush has been made. The result, too, will be about the same—luck to a few, but hardship and disappointment to by far the greater number who were tempted to leave steady work to seek their fortune in the new fields.

SALE!

Estate of Thaddeus Harper.

Pursuant to orders made by the Supreme Court of British Columbia, directing the sale of the above Estate,

TENDERS

Will be received by the undersigned up to noon of

Saturday, 6th day of April, 1889,

For the purchase of the following properties:

LOT 1.

The Flour Mill and Machinery, Store, Dwelling-House and Out-buildings,

Situate at the mouth of Bonaparte River, opposite to Ashcroft Station on the C. P. R., and distant therefrom about one mile and a half.

The mill is in good running order and has ample water power and valuable water privileges.

THE STORE AND MILL

CONTAIN

A Stock of Goods, Agricultural Implements, Wagons, Buggy, Harness, etc., inventories of which can be seen on the premises, at the office of the *Inland Sentinel*, and the offices of either of the receivers.

Separate tenders are invited for the purchase of the goods in Mill and Store, and for the remainder of Lot 1.

LOT 2.

A Lease of Three Miles on Lightning Creek,

Including all the unoccupied ground from the old town of Van Winkle to about ¼ of a mile below Anderson Creek, held under a lease from the Crown for an unexpired term of 14 years, at an annual rental of $100.00.

LOT 3.

A Lease of One Square Mile of Mining Ground on Horsefly Creek,

Likewise held by lease from the Crown for an unexpired term of 54 years at an annual rental of $100, with the privilege of renewal.

IN ADDITION

To the usual machinery necessary for working the claim there is a first-class steam saw mill. An exceptionally powerful pump. A large stock of goods, provisions, mining tools and other necessaries.

This Valuable Mining Property

is in capital working order and is a first-rate chance for a mining investment.

SEPARATE TENDERS

Are invited for the purchase of Horsefly claim, or for working the same upon shares.

Full particulars can be obtained and inventories can be seen at the office of either of the undersigned.

TERMS CASH.

THE BRITISH COLUMBIA FIRE INSURANCE COMPANY

Incorporated by Act of Parliament, April, 1880.

TAKES RISKS ON THE CASH OR MUTUAL PLANS.

As this is a *Home Company*, organized by *British Columbians* for the two-fold purpose of giving *cheap Insurance* and keeping the *money* in this Province, it commends itself to the support of every insurer desiring the prosperity of this country.

Insurance can be effected in this Company at the lowest rates possible consistent with perfect security.

In Ontario, the system of insurance, which is similar to that adopted by this Company, has been in highly successful operation for the past fifty years, and it has proved to be a great advantage to every insurer in it, by reducing the cost of insurance, and it is estimated that now three-fourths of the insurance effected in Ontario is carried by mutual companies, which proves the high estimation in which they are held, and the confidence reposed in them after more than half a century of experience.

NOTICES.

THE COLUMBIA MILLING COMPANY.

Assignment for the Benefit of Creditors.

PURSUANT TO THE STATUTE 44 VICtoria, chapter 12, intituled "An Act to further amend the law of property and to relieve Trustees," and the Statute 50 Victoria, chapter 2, entitled "An Act respecting Executors, Trustees and Assignees, for the benefit of Creditors," notice having been previously given by advertisement inserted for one month in the Daily COLONIST newspaper of Victoria, and the *Inland Sentinel* newspaper of Kamloops, on the 21st day of September, 1888, for all persons claiming to be creditors of the estate of George Herbert Rashdall and George Richard Lawes (trading as the Columbia Milling Company), to send particulars of their claims to the undersigned on or before the 24th day of October last, after which date the Trustees, Alfred Cornelius Flumerfelt and John Nicholles would proceed to distribute the assets of the said estate ratably among the creditors only who might then have proved their claims: this notice not having been deemed sufficient:

Notice is hereby given, that all creditors and persons having any claims or demands upon or against the estate of George Herbert Rashdall and George Richard Lawes, trading as the Columbia Milling Company at Enderby, B. C., are hereby required to send particulars thereof in writing to the undersigned on or before the 15th day of April, 1889, after which day the said Trustees will proceed to distribute the assets of the said estate among the parties entitled thereto, having regard only to the debts, claims and demands of which they then shall have had notice, and that they will not be liable for the assets or any part thereof so distributed to any person or persons of whose debts, claims or demands they shall not then have had notice.

Dated this 15th day of February, 1889.

EBERTS & TAYLOR, feb16-2m Solicitors for the Trustees.

"Land Registry Ordinance, 1870."

Lot No. 1, Group 1, Cowgitz Cove

Skidegate Straits, Queen Charlotte Island.

A CERTIFICATE OF INDEFEASIBLE Title to the abovementioned Lot will be issued to Alfred John Langley and William Parsons Sayward, on the 25th day of April, 1889, unless in the meantime a valid objection thereto be made to the undersigned, in writing, by some person claiming an estate or interest in said lot, or some part thereof.

CHAS. JAS. LEGGATT, Registrar-General.

Land Registry Office, Victoria, 23rd January, 1889. jan23-3mo

Maps, showing the various districts on the Island and Mainland, the situation of desirable City Lots, Homesteads, Gardening and Farming Lands, can be consulted at their office. fe14

(CONTINUED FROM PAGE 1.)

Mr. Martin thought that the hon. member for Lillooet was "a little off," in his remarks. He strongly supported the necessity of a determined and energetic railway policy, which was greatly needed to open up the different resources of the country. He felt a particular interest in the construction of the Shuswap railway, and hoped that it, as well as the railway referred to in the resolution, would receive the earnest support of the Government.

Mr. Semlin dwelt upon the great importance of a road to Cariboo, which was more needed than the one referred to in the resolution. A railway over the Seymour Narrows was also much more desirable. Railway communication with the interior, particularly Cariboo, was a greater necessity. The railway projects which he had referred to were of so much greater importance than the extension of the Island road, that he hoped the Government would first give them their attention.

Mr. Davie would certainly support the resolution. He did not know of a better way of promoting a railway to Cariboo than by Seymour Narrows and Bute Inlet, referred to in the resolution. In this matter the interests of Island and Mainland were decidedly one. He thought now was the time for action, and was glad that the hon. member for Esquimalt had been the first to move.

Hon. Mr. Vernon suggested that to meet the advice thrown out by the hon. member for Yale, it would be well to amend the resolution instructing the government to also consider the furtherance of the other much needed railways referred to.

Mr. Nason said that the remarks of the Hon. Chief Commissioner of Lands and Works met his views exactly. He referred briefly to the great importance of opening up a railway to Cariboo, and would certainly vote for the resolution, but wished to be assured that some steps would be taken to provide a railroad to Cariboo.

The resolution, as amended by the hon. provincial secretary, was carried unanimously.

THE MISSION TO OTTAWA.

Mr. Ladner moved, seconded by Mr. Orr, that an order of this House be granted for a return of all correspondence, not already printed and laid before this House, concerning the Hon. Mr. Robson's mission to Ottawa.

The hon. mover said that his reason for moving the resolution was a question asked a few days ago by Mr. Orr, and replied to by the hon. provincial secretary. This answer, he thought, was very misleading.

Hon. Mr. Vernon said that there was no objection to the resolution. The correspondence was ready now and would be brought down in a day or two.

The resolution was carried.

THE DEVELOPMENT OF QUARTZ MINES.

Mr. Higgins asked leave to introduce a bill entitled "An Act to amend 'An Act to aid the development of Quartz Mines,'" (chap. 88, Consolidated Acts, 1888).

Leave granted. Bill read a first time. Second reading Thursday.

THE BUDGET SPEECH.

Hon. Mr. Turner stated that it was his intention to bring up the estimates to-day, but, in deference to the hon. leader of the opposition, would defer the matter until Tuesday.

PUBLIC SCHOOL BILL.

Hon. Mr. Robson moved on the consideration of the report on Bill (No. 9) "An Act to amend the 'Public School Act,'" the following clause in substitution for sub-section (9) of section 132 "(9.) With the sanction of the Lieutenant-Governor-in-Council, for cause to summarily suspend from teaching any teacher, and to cancel for cause the certificate of qualification of any teacher until the Lieutenant-Governor-in-Council shall confirm or disallow his action in suspending such teacher; and the cancellation or suspension of a teacher's certificate, when confirmed by the Lieutenant-governor-in-Council, shall release the school trustees of the district in which such teacher may be employed from any obligation to continue to employ him as such teacher."

The hon. mover explained that at present the power of suspension was not granted, but the power of cancellation of certificates was. In many cases this was too severe a penalty, and his only object in moving the additional clause was to provide the milder remedy of suspension if necessary, and to provide that the trustees should not be embarrassed thereby.

Mr. Allen thought that the amendment to the School Act proposed was the most sensible move ever made by the Hon. Minister of Education.

Mr. Semlin congratulated the Hon. Provincial Secretary on the improved temper with which he approached the resolution. The hon. gentleman a few days ago had designated the teachers of British Columbia as "cranks." Three days ago the resolution was materially different. It was now as much improved as the tone of the hon. mover. He asked the Hon. Provincial Secretary by whose permission he had changed the resolution from the manner in which it had appeared on notice paper.

Hon. Mr. Robson said that more than three days notice had been given. He had amended his notice of motion, and was in no way required to consult the House on this matter, as more than two days had elapsed since the amended resolution appeared on the paper.

Hon. Mr. Dunsmuir contended that the Hon. Provincial Secretary was perfectly justified in amending his notice of motion. It was acknowledged that it was amended for the better. Surely a man had the right to change his mind if he saw fit.

Mr. Allen called attention to the manner in which, five years ago, the hon. member for Yale went over to the other side of the House owing to the action taken on a certain bill.

Mr. Beaven disapproved of both the amendment before the House, and the one previously put on the notice paper.

Hon. Mr. Humphreys was glad that the first amendment, prepared as the Hon. Provincial Secretary said, by the Superintendent of Education, had been replaced by a more temperate motion. The former was a mean, cowardly attack on the teachers, who were infinitely better educated and more capable men than the Superintendent.

Hon. Mr. Robson called the attention of the hon. member for Comox to the fact that the Superintendent of Education could not defend himself from his attack. He (the Hon. Mr. Robson) assumed all responsibility for the first amendment offered, and the hon. member for Comox could attack him if he felt disposed.

Hon. Mr. Humphreys continued to attack the Superintendent of Education, who, he said, should not be allowed to remain in his position for five minutes. The Superintendent of Education was immeasurably inferior, in point of intelligence and education, to the teachers, whom he treated as he could not treat a class of schoolboys. The amendment, he should not be surprised to discover, was not changed on account of its injustice, but because the Superintendent of Education and the hon. Provincial Secretary were "sacred." He should not be surprised to find that this was the case with the Superintendent of Education, who would "weaken" at anything. He did not think the same could be said said of the hon. Provincial Secretary. He was very glad that the objectionable resolution first proposed, was amended. He thought, however, that the existing act was quite sufficient to meet all requirements. He disapproved of any measure that would bring any intelligent body of men, such as the school teachers of the province undoubtedly were, under the head of any superintendent of education, or any government. He hoped that the superintendent of education would be at once dismissed from the office which he was at present permitted to retain.

Mr. Grant did not consider the amendment necessary. School trustees should have something to say in the control of the teachers as they were the directly appointed representatives of people's wishes. He favored the substitution of the word "temporarily" for the word "summarily" in the resolution.

Hon. Mr. Dunsmuir, as a private member of the House, not as a member of the Government, said that with all due respect to the remarks of the Opposition, he would advise them at the present time, to let the matter go. When the time came he would have something to say about the School Bill as well as the entire system of education, which before long would have to be changed altogether. The country could not long stand the terrible expense which it was now called upon to bear. The cost of its maintenance, $136,000 a year, was more than this province could afford. It was a big question, but it would have to be faced before very long.

Mr. Beaven dwelt on the radical, although not very noticeable, differences between the existing act and the amendment proposed.

The amendment was carried on a vote of 14 to 6.

Yeas—Dunsmuir, Robson, Turner, Vernon, Allen, Croft, T. Davie, Anderson, Thomson, Fry, Duck, Tolmie, Higgins and Nason.

Nays—Beaven, Semlin, Grant, Humphreys, Orr and Ladner.

Mr. Semlin moved to amend section 52 of the "Public School Act" (51 Vic., chap. 101, of volume 1, of the Consolidated Acts, 1888) as—

Sub-section 2—By striking out the figures "30" in the second line and inserting "25" in lieu thereof; and by adding at the end of the sub-section the following words:—"Candidates must obtain 40 per cent. of the marks attached to the written arithmetic and to the grammar papers."

Sub-section 3—By striking out the figures "40" in the second line and inserting "25" in lieu thereof; and by adding at the end of sub-section the following words:—"Candidates must obtain 50 per cent. of the marks attached to the written arithmetic and to the English grammar and to the mensuration papers."

Sub-section 4—By striking out the figures "10" in the second line and inserting "25" in lieu thereof; and by striking out all the words after "certificate" in the third line down to and including the word "grade" in the fifth line, and inserting the following:—"and candidates must obtain 50 per cent. of the marks attached to the written arithmetic, to the English grammar, to the mensuration, to the algebra, and to the geometry papers."

Sub-section 5—By striking out the figures "40" in the second line and inserting "25" in lieu thereof; and by striking out all the words after "certificate" in the third line, down to and including the word "grade" in the fifth line, and inserting the following:—"and candidates must obtain 50 per cent. of the marks attached to the written arithmetic, to the English grammar, to the mensuration, to the algebra, and to the geometry papers."

Sub-section 6—By striking out the figures "40" in the second line and inserting "25" in lieu thereof; and by striking out all the words after "certificate" in the third line down to and including the word "grade" in the fifth line, and inserting the following:—"and candidates must obtain 50 per cent. of the marks attached to the written arithmetic, to the English grammar, to the mensuration, to the algebra, and to the geometry papers."

Hon. Mr. Dunsmuir could not see the necessity for the amendments proposed. The teachers were well paid, and he could see no necessity of lowering the grade of qualification required under the present system.

Mr. Beaven did not think it was proposed to lower the grades of qualification required for procuring teachers' certificates.

Hon. Mr. Robson opposed the resolution, which, he thought, would necessarily lower the standard of ability which the teachers of the province were now required to possess.

Hon Mr. Humphreys said that he would certainly support the resolution. It was not proposed to lower the standard of qualification. In fact, it would be raised in many important branches.

Mr. Theo. Davie considered that the opposition were doing their best to drag the school system as far away as possible from practical education. The proposal now was to place the practical elements of education at a discount, and to offer a premium for those subjects which the average pupil could do without. If a teacher could show 50 cer cent. in the specific subjects of grammar, mensuration, algebra and geometry, he had only to attain 25 per cent. in the practical subjects, such as writing, mental arithmetic, bookkeeping, composition, practical mathematics and so forth. The effect was to disastrously reduce the standard of practical education, and the teacher who might be proficient in the three or four branches of algebra, mensuration and so on, was to be held competent to teach other far more important subjects, of which he knew next to nothing.

Hon. Mr. Turner had expected the introducer of the resolution to explain that it was to relieve certain teachers of a delicate examination. He thought it would be dangerous to alter the School Act as proposed. He could not but think that the resolution meant to lower the teachers' qualification. If there was a scarcity of teachers in the Province it might possibly be needful, but there was not. He should certainly have to oppose the resolution.

Mr. Grant said that he would support the resolution. He thought that should it pass, the standard in the practical branches of education would be raised instead of lowered.

Mr. Semlin rose to explain his resolution, but was called to order, and requested to resume his seat by Mr. Speaker.

The resolution was lost on a vote of 15 to 6.

Mr. Beaven—(smiling), Fifteen counts more than six.

Mr. Ladner moved to insert a clause to amend section 51, chap. 101, Consolidated Acts, 1888, sub-sec. 2, to insert the word "attendance" between the words "monthly" and "registers" in first line, and also to strike out the word "daily" between the words "a" and "record" in the second line.

The hon. mover of the resolution referred to the daily marking controversy. He thought there must be something in it. He had never met a teacher who approved of the system.

Hon. Mr. Robson thought that the question of daily marking had been thoroughly thrashed out. The teachers as a body approved of "daily marking" as the only principle of recording the standing of pupils that could give satisfaction.

The resolution was lost.

Mr. Higgins moved the following as a new clause in the School Act:—

"5. All holders of certificates who shall have taught continuously in the Public Schools of the Province for a period of twelve years, shall be entitled to have their certificates renewed without examination while they continue actively engaged in the service."

Hon. Mr. Robson supported the resolution.

Mr. Semlin thought that five or ten years could be inserted, just as well as twelve years.

Mr. Martin opposed the resolution. The teachers should keep up with the times, and the passage of the resolution was no encouragement for them to do so.

Mr. Grant was in accord with the resolution, and would vote for it.

The resolution was carried.

GAME PROTECTION.

On motion of Mr. Tolmie, the third section of the act to amend the Game Protection Act, was struck out. The report was then adopted. Bill read a third time and passed.

VANCOUVER STREET RAILWAY.

On motion of Mr. Semlin, the bill to incorporate the Vancouver Street Railway Company, was recommitted, with Mr. Nason in the chair, in order that a few minor amendments might be made.

The bill was reported complete with amendments, to be considered on Tuesday.

A COMMITTEE REPORT.

Col. Baker asked the indulgence of the House to present the report of the select committee on standing orders and private bills.

The report was received.

VICTORIA LUMBER AND MANUFACTURING CO.

The House went into committee, with Mr. Martin in the chair, upon the Bill to incorporate the Victoria Lumber and Manufacturing Company. (Mr. Fry).

At six o'clock the committee rose, reported progress, and asked leave to sit again at the next sitting of the House.

Hon. Mr. Robson referred to the suggestion previously thrown out in regard to night sessions. He asked if Wednesday and Friday evenings would be convenient for the members.

No objection to these evenings was offered, and it was understood that night sessions be held on Wednesday and Friday evenings until the end of the present session.

The House rose to sit again to-day at the usual hour of two o'clock.

NOTICE OF MOTION.

Mr. Orr—To move that a select committee be appointed to enquire into the ownership of lots 1, 2, 3, 4, 5, 6, 7 and 8, in Block I: and lots 1, 2, 3, 4, 5, 6, 7 and 8 in Block C in the old townsite of Granville, with power to call for books, registers, plans, maps and papers, and to report to this House; said committee to consist of T. Davie, Bole, Higgins, Mason and the mover.

Always Think of Them.

When diphtheria is in the country they act as a preventative; when spring colds are frequent they are a sure cure; when neuralgia pains are raking your head they drive them away. They are a sure cure for all head and lung diseases. You have only to call at the company's parlors over the White House and they will give a trial free of charge and prove to anyone how the Carbolic Smoke and the Debellator, its companion, acts. They are sold by your druggists. *

THE Remington Typewriter still leads. With one of the above superior machines, Mr. Frank McGurrin, in New York, last January, wrote 151 words in one minute, without an error, thus breaking all previous records of correct work, by 30 words per minute, and placing the Remington's speed still further beyond the reach of competition. M. W. Waitt & Co., Agents for B. C.

A Great Trust.

The only great combination we can confidently approve is the matrimonial trust, an arrangement by which the good wife trusts to the husband the work of earning money, and he trusts to her good judgment in expending at Daley's, 111 Government street, knowing it is the place to buy stationery, cutlery, brushware, brooms, etc. Call and see the new patent broom-holders just in, and the 135 English needles for 25c. *

Barnes' House.

Bastion Square, Victoria, B. C. New and elegant. Situated near the steamboat landings, with unsurpassed view of hills, bay and distant mountains. All rooms are light and sunny. Perfect ventilation.

A full line of Detective Books, each. 50
For sale by T. N. HIBBEN & Co.

Ladies should Remember

That they can have their visiting cards printed from copper-plate, at THE COLONIST office. *

Bishop Selwyn.

When the late Bishop Selwyn was on the point of leaving England for the South Pacific diocese, Sidney Smith said that if the natives eat him he hoped he would disagree with them. Those who read and inwardly digest the standard works will find that they will cause mental exhilaration rather than dyspepsia. Complete sets of Scott, Thackeray, Dickens, etc., etc., sold on payments of 25 cents per week, by WILLCUTT, California Hotel. A post card will bring agent with samples. *

THE cheapest and best place to buy Furniture for Christmas presents is at J. Sehl's, where you can buy a 7 piece solid walnut parlor suite for $45.00 and upwards. *

An apprentice for the millinery business wanted at the Lansdowne House, Yates Street. Apply immediately. *

New Goods at Albion House.

We have just received and offer for sale: Ladies' beaded and lace visites, dolmans and mantles, in all the newest materials; novelties in parasols and sunshades, boys' and girls' straw hats, new prints, embroideries, braid and beaded trimmings in sets, scrim and lace curtains, etc. An inspection invited. BROWN & WHITE, 61 Government street. *1mo

DOES IT PAY?

Three-fourths of our people are troubled with Dyspepsia or Liver Complaint in some form or other, which by nature of the disease has a depressing influence on the mind or body, preventing them from thinking or acting clearly in any matter of importance. Indigestion, coming up of food after eating, dyspepsia, sick headache, acidity of the stomach or any derangement of the stomach or liver (upon which the whole action of our system depends) are speedily and effectually overcome by the use of *Green's August Flower*. The most stubborn cases have yielded to its influence, as thousands of letters received will testify. The immense sale of this medicine is another guarantee of its merits (over a million and a half bottles sold last year). So we ask, will it pay you to suffer from any of the above diseases when you can have immediate relief in the *August Flower*. Three doses will prove its worth. It is sold by all druggists and general dealers in all parts of the world.

Improvements.

Amongst the many city improvements, not only contemplated, but almost already ensured, are the two storey brick additions to the Colonial Hotel, situate on Johnson street, immediately adjacent to Gilmore's & McCandless' tailoring establishment. The plans were sent to England some time ago for the consent of the proprietors, and they, realizing the value of property in Victoria, have agreed to abide by local ideas of progress. The additional two stories projected to that now standing will give treble the present accommodation, so that in the brick building alone 100 guests can at all times be provided with superior apartments. When all details are arranged, a new kitchen and culinary department will be erected, taking the place of the existing ones, and in the *suites* there will be the latest automatic supplies for bathrooms and adjacent necessaries. Mr. Thomas Tugwell, the lessee of the hotel, is abreast of the times, and intends by energy and enterprize to stand there. The wooden portion of the now existing building, carrying it back to Waddington Alley, will go by the board, and all details being thoroughly arranged between the proprietors and the lessees, Waddington Alley, the *quandam* cut off from Esquimalt and its natural ingress to the city, will give way to solid brick phalanxes, combining Johnson, Government, and Yates streets in a trio.

Mr. L. Buttress Trimen is the architect and designer of the plans, and Mr. D. R. Harris conducts the business for the home firm.

LOCAL AND PROVINCIAL.

The Provisional Allowance.

The post office officials of this city were paid the usual provisional allowance at the 1st of the present month. The letter carriers were also paid the allowance, dating from the the time they commenced work, some months ago.

"A Night Off."

On Wednesday and Thursday evenings of this week, Augustin Daly's greatest success, "A Night Off," will be "on" at The Victoria. The company presenting this screaming comedy-farce are of sterling merit, and will, no doubt, play it for all it is worth. The play is of the "Rag Baby" order, the funniest of the funny, and never fails to cause not one, but a hundred hearty laughs.

A Fall to Death.

On Saturday afternoon, Alexander W. Marshall, an overman in the employ of the Vancouver Coal Co. at Nanaimo, fell down the shaft of the mine at Northfield, to meet a terrible death. The unfortunate man was being drawn up to the surface, when the swaying of the cage caused him to lose his hold, and he was precipitated to the bottom of the shaft, his death being instantaneous. A coroner's jury was empannelled, and returned a verdict of accidental death.

"Uncle Tom's Cabin."

This ever-welcome play will be produced at The Victoria on Friday and Saturday evenings next, with Saturday matinee. "Uncle Tom's Cabin" is one of the few plays which never becomes stale, and McFadden's famous company present it in a style which calls forth praise in every city and town where the company appear. A feature of McFadden's company are the charming twin Putnam Sisters in their specialties; two Lawyer Marks; the great bloodhounds, "Tiger" and "Bismarck," and the colored jubilee singers.

A Notorious Whiskey Seller.

Early yesterday morning a party of Indians and a white man named William Raby were carousing in a cabin on Humboldt street, when their orgies were suddenly interrupted by the entrance of Supt. Sheppard. The Indians were too drunk to make any resistance but Raby made a hard struggle, and had at length, with the Indians, to be placed in an express wagon and conveyed to the lock-up. They were too drunk to appear before the magistrate at 11 o'clock, and were kept in the cells all day to sober up. The entire party will get a hearing to-day. Raby is one of the most notorious whiskey sellers in Victoria, and has been an inmate of the city jail for the best part of the past ten years.

Yesterday's Blaze.

The untrustworthiness of the present fire alarm system was fully exemplified yesterday morning at about six o'clock, when King's bakery, on Albert street, near the head of Pandora, was discovered to be in a blaze, and an alarm was at once turned in. Owing to the defects of the alarm service, the district was misinterpreted, and the firemen started on the gallop for James Bay. Here they found no fire, and they were returning to the station when they at last succeeded in locating it. Arriving on the scene, they found that the flames had gained headway, and before the fire could be brought under control, the building had been completely gutted, and the roof had fallen in. The amount of damage is supposed to reach $600, partially covered by insurance. A defective flue in the oven is assigned as the cause of the fire.

An Almost Fatal Fall.

Just as the steamship Umatilla, from San Francisco, reached the ocean dock last evening, a steerage passenger, named Charles Williams, whose home is in San Francisco, fell through one of the hatches to the floor of the hold, a distance of twenty-five feet. He struck on his shoulders and back, which, strange to say, was not broken, and for a few minutes lay absolutely motionless, and was supposed to be dead. Dr. Jackson, quarantine officer, as soon as the gang plank was run out, went aboard and examined the injuries which the unfortunate man had received. His face was badly torn and bruised and covered with blood, presenting a terrible spectacle. The doctor found that while no bones had been broken, the victim of the accident had received internal injuries from which it is barely possible he will recover. He was at once conveyed to the Royal Hospital, where everything that can be, will be done to save his life. He is a machinist by trade, and was on his way to Tacoma where he had secured work.

A Summer Hotel.

Where is the summer hotel company? Travel, so far this year, is largely in excess of last, and there is every prospect that during the tourist season there will be an avalanche of visitors. Where are they to be accommodated? Last year hundreds were turned away from the leading hotels, and visitors generally require the best. Instead of waiting for a company that will build a magnificent hotel of brick and stone, would it not be a good investment to erect a large wood and plaster summer hotel, in the neighborhood of Beacon Hill, with a commanding view of the Straits. Tourists do not travel from one end of the continent to the other to look from their windows on back yards and dusty streets. They come here for pleasure, and if a hotel of good-sized rooms, wide corridors and piazzas, and attractive grounds, was erected in the quiet of the city, facing the Straits, tourists would stay with us for weeks instead of days, and the city would derive the benefit. There is time to erect such a building for the coming summer's traffic, and some move should be made in the direction indicated. The travel is coming here, but if tourists are to be turned away from our doors, each one will become an advertisement against the city, and much injury will result. There can be little question that a hotel of the kind suggested, ably managed, would not only meet every want, but would be a profitable investment.

A Chinese Housebreaker.

A very daring attempt to burglarize the residence of Dr. Helmcken was made on Sunday evening between seven and eight o'clock, by a Chinaman whose identity still remains unknown. There were in the house at the time, besides Dr. Helmcken, Sr., Dr. J. D. Helmcken, Miss Helmcken and Mr. W. R. Higgins. All were sitting in the parlor when the crashing glass was heard in the conservatory, and looking in, the people in the house were just in time to see through the glass a Chinaman swing himself on to the roof of the conservatory. On the level with this roof is the window of a bedroom occupied by a Chinaman employed in the Doctor's household, and it is in this room that the intruder evidently intended to rob, as the occupant was known to have considerable cash which he was taking care of for a Celestial friend. Seeing how matters stood, Dr. Helmcken proceeded at once to the room referred to, intending to capture the intruder as he came in the window. Mr. Higgins stationed himself outside, to capture the burglar, if he saw fit to try to escape by the way he entered. The Chinaman, on reaching the window, saw that he was discovered, and standing for a moment on the edge of the conservatory roof, took a long jump into the lane, and then took to his heels, dropping a revolver and hatchet as he ran. Mr. Higgins gave chase, but the wily Mongolian, by frequent turnings and greater fleetness of foot, managed to outwit him, and make good his escape.

Sent to the Asylum.

The unfortunate man, Wm. Tyler, who has been confined in the city lock-up for safe keeping, was yesterday adjudged insane, and he was taken to Westminster this morning to be placed in the lunatic asylum.

Y. M. C. A. Notes.

For some time past the Association has been considering the matter of better accommodation to meet the growing needs of the organization. At a special meeting of the board of directors, held last evening, the Hon. John Robson in the chair, it was voted to take steps at once towards securing a lot upon which to build a suitable home for the Association.

To-night there will be a meeting for members. There will be an address by Mr. Jacks, the travelling secretary, cornet solos by Sergeant Proctor; flute solo, Mr. Wm. Hamden; vocal solo, Mr. Des Brisay.

Mr. Jacks, the travelling secretary for the Pacific Northwest, came down from New Westminster last night and will remain for a short time to assist in the work here.

THE TWENTY-FOURTH OF MAY.

The General Committee Meets—Sub-Committees Formed and the Work of Preparing for the Great Celebration Going Merrily Forward.

There was a good attendance of the members of the general committee at the City Hall last night, the business being organization for the work of arranging the forthcoming demonstration in honor of the Queen's birthday.

The chair was occupied by the chairman, Mayor Grant, while Mr. D. W. Morrow kindly acted as secretary.

Supt. Roycraft said that he had in his mind a programme, which could, of course, be changed if it was thought desirable. It comprised a baseball tournament, lacrosse, football and cricket matches, races, etc., in the morning of the first day. A sham attack on the hill by one of Her Majesty's men-of-war, which would be repulsed by the local militia and "C" battery in the afternoon. For the second day, a sailing match in the morning, with the professional and other races in the afternoon. The whole to end with a grand ball in Assembly Hall.

The Chairman suggested, as another very attractive feature, an exhibition by the Athletic Club, which could not fail to be interesting.

Mr. J. L. Smith was afraid it would make the programme too long.

Mr. A. G. McCandless thought that the programme was a good one, but favored a somewhat different arrangement of the attractions contained in it. He thought that the Athletic Club exhibition could be made a special feature for one of the two evenings.

Mr. Joshua Davies dwelt upon the great attraction a sham battle would prove, and Col. Holmes followed, to say that anything he could do would be done to make the demonstration a success. He felt sure that Admiral Hennage, if communicated with, would give his consent to the fleet taking part in the doings of the day. With the great athletic programme, and the ball and tournament for the evenings, a strong drawing card could be announced.

A long discussion followed in regard to the proper place for the regetta; some favored the Gorge, but the great majority thought that the harbor, where all could view the various races, was just the right place and the one that would give most general satisfaction.

On motion of Mr. Joshua Davies, the mayor was requested to communicate with Admiral Hennage with a view to arranging for a sham battle on Beacon Hill.

The following draft of programme was submitted by Mr. Davies:

FIRST DAY.
Sailing Match.
Baseball.
Sham Battle.
Grand Ball in the Evening at Assembly Hall.

SECOND DAY.
Lacrosse.
Cricket.
Professional Regatta in Victoria Harbor.
Athletic Club's Tournament in Victoria Theatre in the Evening.

The programme was submitted to the meeting and adopted unanimously.

Horse racing, and the advisability of making it a feature of the programme, was next discussed, but the opinion of those present was in opposition to it.

The following sub-committees were then named by the Mayor, with power for them to add to their number:

REGATTA—Supt. Roycraft, Ald. Harrison, Col. Holmes, R. P. Rithet, Captain Clarke, R. Broderick and J. Seeley.

BASEBALL—McQuade, Robson, Shaw, Hall, Wootten, Fee, and Davies.

LACROSSE—Wood, Morrow, Quinlan and Ballantyne.

ATHLETIC CLUB—D. M. Eberts, Supt. Roycraft, Whittaker and Smith.

SHAM BATTLE—Hon. J. H. Turner, R. P. Rithet and Mayor Grant.

BALL—Hon. J. H. Turner, McIntosh, Prior, Jones, Davies, Earle, Deasy and Capt. Irving.

FINANCE—Hon. J. H. Turner, Ald. Goodacre, Jno. Boyd, D. F. Fee, A. G. McCandless. D. Hart, T. J. Barnes, Wm. Lorrimer, G. Shaw, F. Campbell, Jno. Kurtz and the Mayor. THE COLONIST, *Times* and *Standard* also to be receivers of subscriptions.

PRINTING—E. E. Blackwood, Robert Irving, J. Davies, D. W. Higgins, M. P. P., Thos. Deasy, W. P. Lindley and C. H. Gibbons.

RECEPTION—R. P. Rithet, Robert Ward, A. B. Gray, Hon. J. H. Turner, E. McQuade, Mayor Grant, Hon. F. G. Vernon, and E. Crow Baker, M. P.

The regatta committee decided on meeting in the mayor's office on Friday evening; the Athletic Club in the same place on Tuesday.

The mayor was on motion requested to communicate with the professional oarsmen, informing them that the terms they had asked for would be met; and the secretary was instructed to solicit a substantial donation from the city council.

After the usual votes of thanks the meeting broke up, the general committee to again come together on Friday evening.

SANITARY.

TO THE EDITOR:—I read Mr. Henley's letter in Saturday's issue with some little surprise. As I understand it, the proposition of the council is to build a wharf out to deep water, there to deposit the filth, which will be carried to sea by the tide. This would do away with the present offensive way of getting rid of it. I am credibly informed that the night soil is taken over by the Chinese gardeners and used as a fertilizer, and that frequently the land is thickly covered with it. I can testify to the disgusting odors that emanate from the vegetable ranches adjacent to Mr. Henley's hotel. The air is sometimes so foul as to make it difficult to breathe when one is driving or walking along the beach road in the neighborhood of the ranches. If Mr. Henley and his family can stand the exhalations from those gardens, he surely should be content with the proposition of the council, which would do away with the nuisance. The scheme is a step in the right direction, and I trust will be carried out.

ELECTOR.

PROVINCIAL LEGISLATURE.

Third Session of the Fifth Parliament.

TWENTY-FIFTH DAY.

MONDAY, March 18th, 1889.

The Speaker took the chair at 2:20 p. m.

Prayers were read by Rev. J. W. Wadman.

A PETITION RECEIVED.

The petition of A. B. Ferguson and others, of Lillooet district, (re the keeping of the public roads in repair,) was read and received.

REPORTED COMPLETE.

The committee on railways reported complete the Bills to incorporate the Columbia and Kootenay Railway and Navigation Company. The committee also called attention to the omission in the petition of the latter company—of any specified time for commencement and completion of work. The report was received.

The committee on standing orders and private bills, presented a report, dealing with the petitions asking for certain amendments to the Act of Incorporation of the City of Vancouver; an amendment to allow the City of Victoria certain rights in reference to street lines; and the incorporation of the Brocton Point Athletic Club. The report contained certain recommendations in regard to the petition of the Brocton Point Athletic Club, which Mr. Speaker did not consider allowable. The report was accordingly referred back to the committee for necessary amendment.

THE NORTHERN RAILWAY.

Mr. Higgins moved, seconded by Mr. Duck, that in the opinion of this House it is desirable for the government to take steps, during the recess, that will insure the extension of the Esquimalt-Nanaimo Railway to some convenient point or harbor on the northern part of Vancouver Island.

The hon. mover said, in introducing the resolution, that he must express regret that there existed no definite basis or policy whereby the provincial government could undertake or recommend the construction of railways throughout the province, in which case a motion of this character would be entirely unnecessary. If a governmental policy was defined, say that $3,200 a mile was offered by the provincial government and a like sum by the Dominion government, with the addition of a public land grant of liberal dimensions, there would be no difficulty encountered in forming companies to build lines wherever there was a reasonable prospect of their proving paying investments. Recurring to the resolution, he said that the Island of Vancouver was 300 miles in length. Already 75 miles of road had been constructed and was in running order. He assumed that the present "Island Railway" Company or the Western Pacific (Bute Inlet) Company would build from Wellington to Seymour Narrows. When this was done, there would remain but 105 miles to be built to reach the northern end of this island. The cost of this 105 miles would not exceed $3,500,000. The road would pass through an exceptionally fertile and favorable country; surveys already made, having demonstrated that many thousand acres of arable land exist between Comox and the head of the island. Estimating the extent of these lands at 60,000 acres, worth $2.50 an acre, their sale for agricultural purposes would go a long ways towards defraying the cost of the work. But when it was taken into consideration that vast deposits of forest, mineral and fossil wealth are known to exist on the northern part of Vancouver Island, and the high esteem in which these lands were now held by capitalists, he thought it was safe to say the extension he proposed might be built for alternate blocks of land on either side of the line. If a guarantee was preferred to a land grant, taking into consideration the valuable traffic that would pass over the road, two per cent. on a capital sum of $3,500,000 for twenty years should be sufficient to invite capital to take the work in hand. He did not think the policy of giving a continuous grant of land along a line of railway should be repeated. He favored the granting of alternate blocks of land, of say 10,000 acres. Thus the company could not improve their land, without improving the land reserved for the public. Would this line pay? The hon. member believed that it would. By its construction, the passage between Victoria and Alaska would be shortened two and a-half days, and if the magnificent conception of the hon. president of the council to establish a terry across the Straits between Becher Bay and Crescent Bay with rail communication with Portland were carried out the trip from Sitka to Portland would be made in 3½ days. The effect of this construction would be to make one of the many snug harbors on the northern coast of Vancouver Island the terminus of ocean travel on the North Pacific. (Hear, hear.) He believed that the surveyors who were sent out two years ago, reported that they had found a favorable line for the road, and that they were of the opinion that its cost would be extremely light as compared with that of the Esquimalt-Nanaimo road. In conclusion, he asked the earnest and favorable consideration of his resolution by the members from both the mainland and the Island. (Hear, hear.)

Mr. Allen enquired if it was proposed to open up the railway to Cariboo? If so, he would give his support to the resolution.

Mr. Higgins said that he had taken into consideration, and, in his remarks referred to the Bute Inlet road, which was to tap Cariboo.

Mr. Fry said that no resolution brought before the House during the present session had given as much satisfaction as the one now being considered. Without direct railway connection between the north end of the Island and the south, the Island could never be opened up. He dwelt upon the great importance of the matter dealt with, and trusted that it would be supported without that sectional feeling, which sometimes retarded the progress of a country, although he was glad to say that it was noticeably absent from the deliberations of the British Columbia House.

Col. Baker, referring to the word "ensure," in the resolution, asked what power would thereby be delegated to the Government.

Hon. Mr. Robson, to meet the objection taken by the hon. member for Kootenay, moved in amendment, that the words, "with a view to promoting" be substituted for the words "that will ensure." Speaking on the subject matter of the resolution, he said that he considered the extension of the Island railway, a national question of the greatest importance. Not only would the extension of the railway develope the finest mineral and agricultural resources of the northern part of the Island, but would greatly advance the importance of the fisheries on the northern shores of the island, and would greatly increase the importance and value of the Alaskan trade. The most fertile agricultural portion of the island lying in the northern part, would almost justify the extension of the Island railway on local grounds alone; while the increase of trade with Alaska and the Queen Charlotte Islands made it a most important national question. When at Ottawa, he discussed this matter, with other railway schemes, with the Dominion Government, who considered it not only of Dominion, but of Imperial importance. They would no doubt offer financial assistance in the matter of extending the road. This railway, the Shuswap Railway, and the road to Cariboo, were three projects which would, of necessity, have to go forward at once. The Government should have a determined railway policy, as without roads to reach the sources of her wealth, they would never be properly developed.

Mr. Allen thought that the resolution was too indefinite. It did not show where the railway was going. If the introducer of the resolution would guarantee that the railway went through Cariboo, he would support the resolution.

(CONTINUED ON PAGE 3.)

CITY POLICE COURT.

(Before Hon. A. N. Richards, P. M.)

The case of J. Barnswell, for infraction of a street by-law, came up on remand, and a fine of $5 was imposed.

John McAvey, charged with beating his way to Vancouver, came up for sentence. He was ordered to pay $5, and, as he did not have the cash, he will assist in the cells for the next eighteen days.

Jimmy Chickens, who is a dilapidated specimen of the noble redman, was fined $10, as he is an old offender. Jimmy's pockets being empty, he went to jail for a month.

Another drunk was fined $5.
